Instructions:

Enlarge templates as needed and cut out. Refer to completed project photo as a reference.

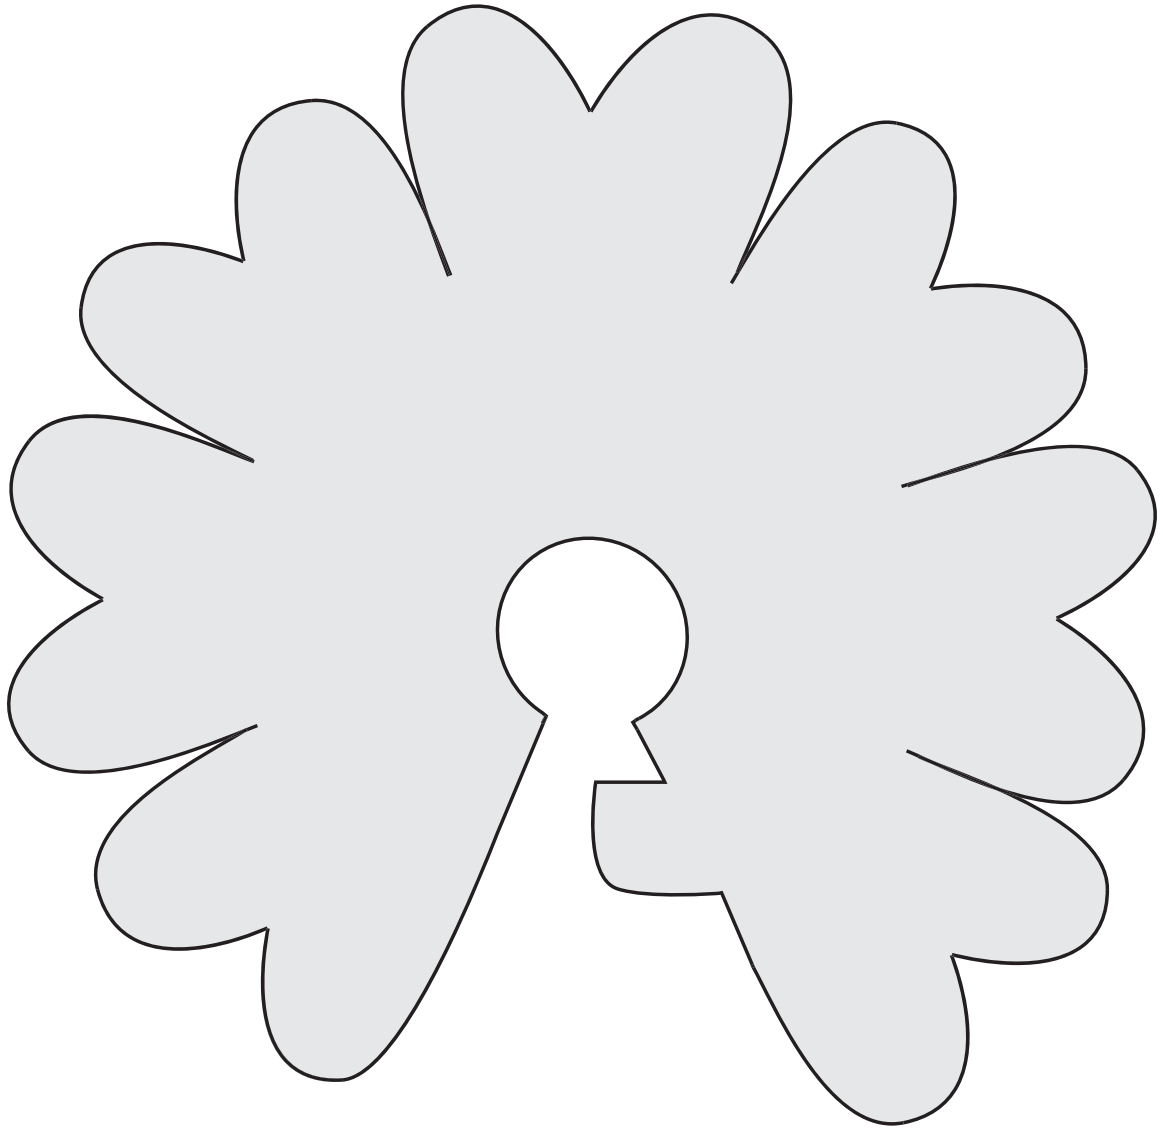

1. Using the Floral Garland template, trace and cut out flower shapes from The Immortal Love Stack. As a general guide, we used the following:
 - One large rounded petal flower
 - One medium rounded petal flower
 - Two small rounded petal flowers
 - Two medium pointed petal flowers
 - One small pointed petal flower
 - Three roses
2. Create base of floral garland by wrapping branches together with floral wire. The base should be about five feet in length.
3. Create flowers:
 - Rounded petal flower- After cutting out flower layers, glue tab ends together to create a funnel shape. Glue flower layers and tulle together. Add dimension to petals by lightly bending petals with pencil. Glue wispy flower and tulle to the center (see directions below for wispy flowers).
 - Pointed petal flower- After cutting out flower layers, glue tab ends together to create a funnel shape. Glue flower layers and tulle together. Add dimension to petals by lightly bending petals with pencil. Glue wispy flower to the center (see directions below for wispy flowers).
 - Wispy flower centers- Create wispy flower centers by cutting slits into strip with scissors. Then wrap strip in a circular shape and adhere together as you wrap. Fray and bend ends to create dimension.
 - Rose-Wrap circular strip into a rose shape and adhere together as you wrap.
4. Glue assorted rhinestones to flowers.
5. Adhere flowers to the branches using hot glue gun.
