

DIY Project Templates

The Lace & Linen Stack by DCWV Pretty Mobile

Supplies & Tools:

- The Lace & Linen Stack by DCWV
- Pretty Mobile template
- Glue gun
- Super glue
- Scissors
- 8" Foam ball
- Butterfly paper punch or die cut
(You may also use fleur-de-lis, circles, etc.)
- Die cut machine (optional)
- Tulle
- Assorted crystal beads
- Assorted buttons
- Assorted ribbons
- Assorted charms
- Foam mount squares
- T pins
- Fishing line

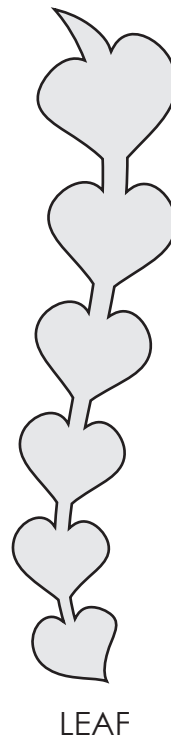

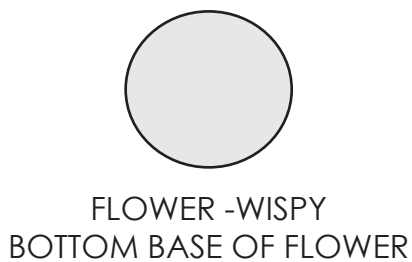

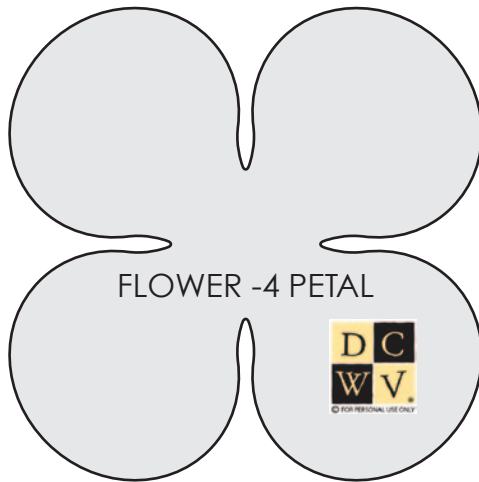

Instructions:

Enlarge templates as needed and cut out. Refer to completed project photo as a reference.

1. Using the Pretty Mobile template, trace and cut out flower shapes and five dimensional hearts from The Lace & Linen Stack.
2. Create flowers and set aside for later use:
 - Rose-Wrap circular strip into a rose shape and adhere together as you wrap. Bend petals to create dimension. Repeat to create additional flowers.
 - 4 Petal-Add dimension to petals by lightly bending petals with pencil. Glue rhine stones into centers. Repeat to create additional flowers.
 - Wispy- Create wispy flower by cutting slits into strip with scissors. Wrap strip in a circular shape and adhere together as you wrap. Fray and bend ends to create dimension. Glue bottom base to flower. Repeat to create additional flowers.
3. Cut foam ball in half.
4. Cut three pieces of tulle to desired lengths. These pieces will be used to hang the mobile. Using T pins, securely insert tulle pieces into the foam ball.
5. Cut a 1" strip of paper from The Lace and Linen Stack. Wrap and adhere around the top of foam ball.
6. Cut five pieces of fishing lines to desired lengths. These pieces will be used to hang butterflies, leaves, beads, buttons, ribbons and tulle.
7. Assemble hanging lines:
 - To adhere paper shapes, glue two identical paper shapes back-to-back with the fishing line inserted through the center.
 - To hang crystal beads, insert with fishing line and tie.
 - Adhere button clusters with super glue.
 - Tie ribbons and tulle.

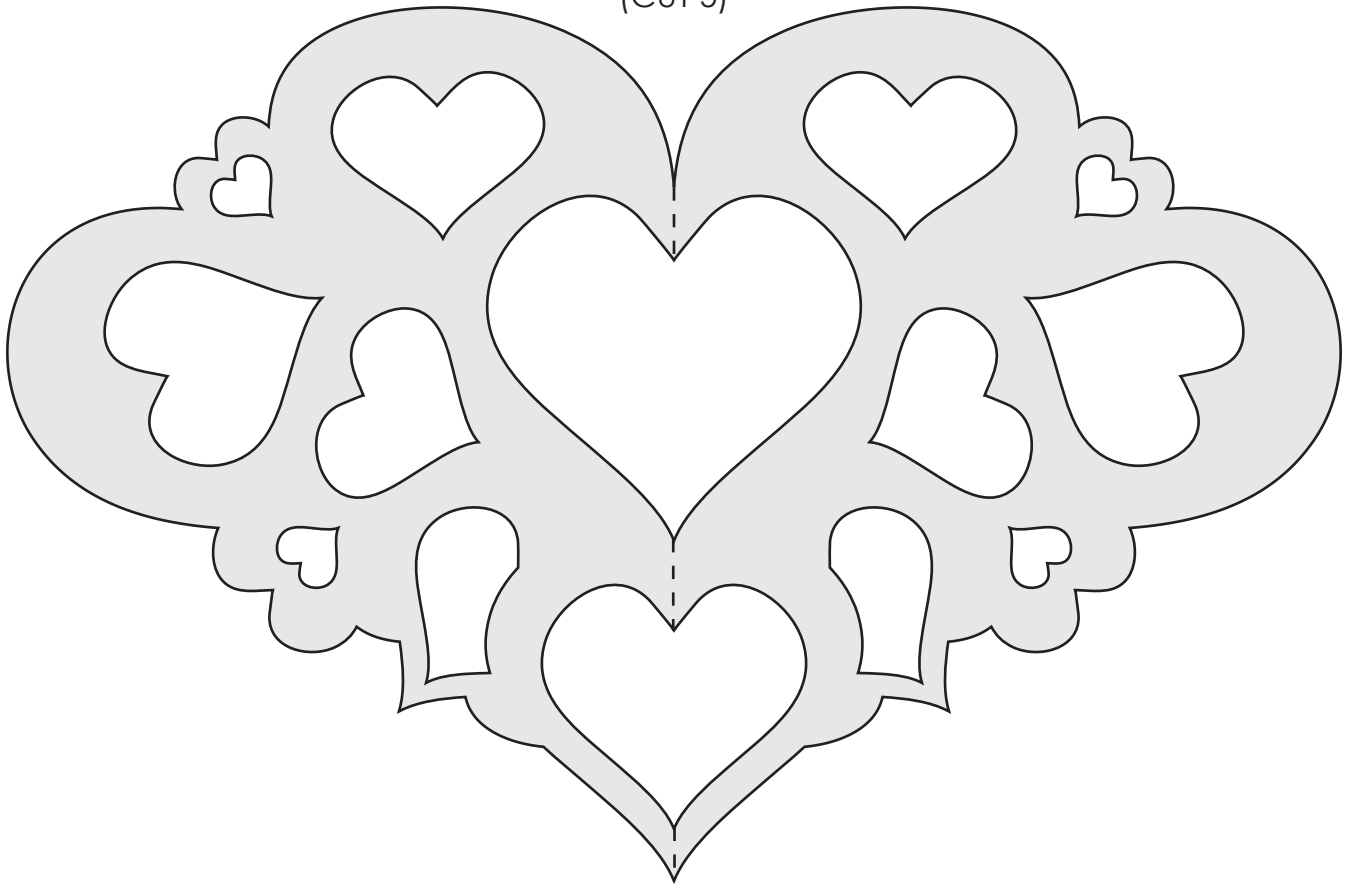

8. Insert hanging lines with T pins into foam ball.
9. To create center insert, cut a piece of tulle to desired length.
10. Create dimensional heart center by folding five hearts in half. Using foam squares, adhere one side of folded heart panel to the panel of another heart shape. Repeat with remaining hearts to create a dimensional shape. See completed photo as a reference.
11. Insert and glue one end of tulle into the center of dimensional heart. If desired, hang additional charms and beads with fishing line to the dimensional heart.
12. Wrap remaining end of tulle with a strip of paper from The Linen and Lace Stack. Create a hole in the bottom of foam ball and insert tulle.
13. Glue assorted flowers to the foam ball.
